Census File Number

Item 17. CONSUMPTION OF SELECTED MATERIALS DURING 1997

INSTRUCTIONS

1. General – The materials, parts, and supplies listed below are those commonly consumed in the manufacture, processing, or assembly of the products listed in item 18B. Please review the entire list and report separately each item consumed. Leave blank if you do not consume the item. If you use materials, parts, and supplies which are not listed, describe and report them in the "Cost of all other materials . . ." line at the end of this section. If you consumed less than \$25,000 of a listed material, include the value with "Cost of all other materials . . .," Census material code 970099 8.

Report materials, parts, and supplies purchased, transferred from other plants of your company, or withdrawn from inventory.

If quantities are requested, please use the unit of measure specified.

If the information as requested cannot be taken directly from your book records, REASONABLE ESTIMATES ARE ACCEPTABLE.

2. Valuation of Materials Consumed – The value of the materials, etc., consumed should be based on the delivered cost; i.e., the amount paid or payable after discounts and including freight and other direct charges incurred in acquiring the materials.

Materials received from other plants within your company should be reported at their full economic value (the value assigned by the shipping plant, plus the cost of freight and other handling charges).

If purchases or transfers do not differ significantly from the amounts actually put into production, you may report the cost of purchases or transfers. However, if consumption differs significantly from the amounts purchased or transferred, these amounts should be adjusted for changes in the materials and supplies inventories by adding the beginning inventory to the amount purchased or transferred and subtracting ending inventory.

3. Contract Work – Include as materials consumed those you purchased for use by others making products for you under contract. Amounts paid to other companies doing the contract work should be reported in item 10, line e, and should include freight in and out. On the other hand, materials owned by others but used at this establishment in making products for others under contract or on commission should be excluded.

4. Resales – Cost for products bought and sold or transferred from other establishments of your company and sold without further manufacture, processing, or assembly should be reported in item 10, line b, not in item 17 below. The value of these products shipped by this establishment should be reported in item 18B under Census product code 99989 00 6, "Resales."

Item 18B. PRODUCTS AND SERVICES OF THIS ESTABLISHMENT DURING 1997

INSTRUCTIONS

1. General – The manufactured products and services listed below are generally made in your industry. If you make products that are not listed, describe and report them in the "All other products made in this establishment" section at the end of item 18B. PLEASE DO NOT COMBINE PRODUCT LINES.

If quantities are requested, please use the unit of measure specified.

If the information as requested cannot be taken directly from your book records, REASONABLE ESTIMATES ARE ACCEPTABLE.

2. Valuation of Products – Report the value of the products shipped and services performed at the net selling value, f.o.b. plant to the customer; i.e., after discounts and allowances, and exclusive of freight charges and excise taxes.

If you transfer products to other establishments within your company, you should assign the full economic value to the transferred products; i.e., include all direct costs of production and a reasonable proportion of all other costs and profits.

3. Contract Work – Report PRODUCTS MADE BY OTHERS FOR YOU FROM YOUR MATERIALS on the specific lines as if they were made in this establishment. On the other hand, do not report on the specific product lines PRODUCTS THAT YOU MADE FROM MATERIALS OWNED BY OTHERS. Report only the amount that you received for "commission or contract receipts" under Census product code 93000 00 8.

4. Resales – Do not report on the specific product lines those PRODUCTS BOUGHT AND SOLD OR TRANSFERRED FROM OTHER ESTABLISHMENTS OF YOUR COMPANY AND SOLD WITHOUT FURTHER MANUFACTURE. Report only a value under Census product code 99989 00 6, "Resales."

5. Definitions

PLYWOOD: Rigid wood-veneer assemblies bonded together with adhesive substances having a central ply or core of wood veneer, lumber, hardboard, wood particleboard, or other material with one or more plies of wood veneer on each side thereof, the grain of at least one ply being at an angle (usually a right angle other than at zero degrees) with the grain of one or more of the other plies, including assemblies in which the face ply (or plies) has been mechanically scored, striated, or similarly processed.

WOOD VENEERS: Wood sheets or strips, regardless of thickness, quality, or intended use, produced by the slicing or rotary cutting of logs or flitches; and wood sheets, not over 1/4 inch in thickness, produced by sawing and of a type used to overlay inferior material.

VENEERED PANELS: Rigid wood-veneer assemblies, bonded together with adhesive substances, except plywood, with a wood-veneer ply on one side of a backing, or on both sides of a core, in which the backing or core may be composed of lumber, veneer, hardboard, wood particleboard, or other rigid material, including assemblies in which the face ply (or plies) has been mechanically scored, striated, or similarly processed.

CELLULAR PANELS: Rigid assemblies bonded together with adhesive substances with both sides or faces consisting of veneer, plywood, lumber, wood-veneer panels, hardboard, wood particleboard, or other board composed of vegetable fibers, and with a core of hollow, honeycomb, or sponge-like construction, whether or not the interstices are filled with loose or loosely matted fibrous materials.

PREFINISHED PLYWOOD PANELS: Plywood panels that are face finished on one or both surfaces by printing, sanding, grooving, embossing, scoring, striating, or by the addition of fillers, sealers, waxes, oils, stains, varnishes, paints, or enamels. Prefinished panels also include panels that have been overlaid with nonwood materials.
