ITEM 18: DETAILED COST OF MATERIALS, PARTS, AND SUPPLIES

Of the **\$,000.00** of materials, parts, and supplies in 2017, reported on Item 16, line A1, how much was for the following specified materials?

General - The sum of the costs of the itemized materials in this section should equal the figure reported on **Item 16**, line A1 (*Cost of materials, parts, containers, packaging, etc. used*). The following is a breakout of the \$,000.00 currently reported there. The materials, parts, and supplies listed below are commonly consumed in the manufacture, processing, or assembly of the products listed in **Item 22**.

- Please review the entire list and report separately each item consumed.
- Leave a material blank if you did not consume the item.
- Report materials, parts, and supplies purchased, transferred from other plants of your company, or withdrawn from inventory.
- If the information as requested cannot be taken directly from your book records, **reasonable estimates are acceptable**.

Valuation of Materials Consumed - The value of the materials, parts, and supplies consumed should be based on the delivered cost; i.e., the amount paid or payable after discounts, and including freight and other direct charges incurred in acquiring the materials.

- Materials transferred from other plants within your company should be reported at their full economic value (the value assigned by the shipping plant, plus the cost of freight and other handling charges).
- If purchases or transfers do not differ significantly from the amounts actually consumed, you may report the cost of purchases or transfers. However, if consumption differs significantly from the amounts purchased or transferred, these amounts should be adjusted for changes in the materials and supplies inventories by adding the beginning inventory to the amount purchased or transferred and subtracting ending inventory, reported on **Item 9**.

Contract Manufacturing - The value of materials used for products produced under contract by other companies.

Include:

- Materials purchased by this establishment to be consumed by companies that are manufacturing products for this establishment under contract.

Exclude:

- Amounts paid to companies that are manufacturing products for this establishment under contract. Report these amounts on **Item 16**, line A3 (*Cost of work done for you by others on your materials*).
- Materials owned by other companies but used by this establishment to make products under contract or for a commission.

Wholesaling Activities (previously **Resales**) - The costs of imported or domestic products bought and sold or transferred from other establishments of your company and sold without further manufacture, processing, or assembly **should not be reported here**.

- The cost of these wholesale products should be reported on **Item 16**, line A2 (*Cost of products bought and sold without further processing*).
- The value of these wholesale products shipped by this establishment should be reported in **Item 22** on the line appropriate for the type of Wholesaling activity being reported.
